School: _____

email address*: _____

phone number: _____

mailing address: _____

Signature: _____

Our goal at Automatic Duck is to make useful tools, and get them into as many hands as possible. Useful technology is no good left unused. We know that students often have limited means, so with this in mind we make our plug-ins available at a discount to qualified individuals. But please treat this offer, and us, with respect. If you're not a student or faculty member at a real school please don't make up wild tales to try to convince us to provide you with a discount too.

If you have any questions please send an email to education@automaticduck.com or call Wes Plate at 360-568-6805 x21

*Please provide an email address at your school's domain. Do not use a personal email address or an email address from another domain (no gmail, no hotmail, etc.)
